The Hoovers, promoting Positive Youth Development together since 2006.

Mission ¹

Why do we houseparent?

We strive to help girls become women who are empathetic, wise, teachable, and confident to tackle the challenges of life in and beyond high school.

How do we define success?

Development of character and the acquisition of skills is required for success to be achieved. Long-range goals require a long-range measure of success. Please let us know how you feel we are doing! We want to be accountable to our defined mission.

*"No significant learning occurs without a significant relationship."
-James Comer*

About us

THE HOUSEPARENTS

Joe and Ashley Hoover met one another volunteering as youth mentors. They have continued working for positive youth development for the last 14 years.

2

THE HOME

Safety, structure, belonging, and a connected community establish the setting for positive youth development. From emotional support to making delicious meals, we strive to create the environment for each student to pursue their best.

THE PROGRAM

Life skill and Social Emotional Learning curriculums, namely: The Compass Project are explicitly taught at regular intervals throughout each month.
